

We are excited to have signed up school to Freerice. It is an exciting way to improve general knowledge and subject based such as geography whilst also having a positive impact across the world.

Freerice is a website and mobile application that allows players to donate rice to families in need by playing a multiple-choice quiz game. For every question the user answers correctly, ten grains of rice are donated via the United Nations World Food Programme. Freerice is an educational trivia game that helps you get smarter while making a difference for people around the world. Every question you answer correctly raises 10 grains of rice for the World Food Programme (WFP) to support its work saving and changing lives around the world.

Have ago as a family it really is great fun!
